

Portable PH/ORP Meter

01 Applications

Portable PH/ORP Meter suitable for detecting the PH value of aqueous solutions, such as physical and chemical analysis, environmental protection, swimming pool, aquarium, food, cosmetics, soilless cultivation, aquaculture and other industries, it's especially suitable for use in the field and on site.

02 Main features

- PH/ORP model can store 40 pieces of data respectively
- Automatic identify the standard liquid
- Recoverable factory setting
- Suitable for outdoor and scene using
- Manual temperature compensation
- Standard liquid value can be corrected
- Power off protection>10 years

CE FC RoHS

03 Technical indicators

Measuring range:	0~14pH, -1999~+1999mV
Resolution:	0.01pH, 1mV, 0.1°C
Accuracy:	±0.02pH, ±1mV, 0.3°C
Stability:	≤0.01pH/24h
PH Standard liquid:	4.00/6.86/9.18
Temperature compensation:	0-99.9°C, PT1000(pH)
Power supply:	AA batteries(1.5V)×5
Working conditions:	0~60°C

04 Optional accessories

Carrying case
