

Portable Ozone Meter

01 Applications

Portable Ozone Meter is used for continuous monitoring and control of ozone content in water treatment plants, canning plants, drinking water distribution networks, swimming pools, cooling and circulating water, water treatment projects, etc.

02 Main features

- Memory function can store 40 pieces of data
- Automatic/manual temperature compensation function
- Recoverable factory setting
- Suitable for outdoor and scene using
- Watchdog function Built-in microprocessor chip
- The sensor response quickly
- Power off protection>10 years

CE ISO FC RoHS

03 Technical indicators

Measuring range:	0~20mg/L
Resolution:	0.01mg/L
Accuracy:	mg/L:±1%FS
Working temperature:	0~60°C
Power supply:	AA batteries(1.5V)×5

04 Optional accessories
